1. #ERASMUSDAYS: CELEBRATING EUROPE

History and objectives of the #ErasmusDays

Created in 2017 by the Erasmus+ France / Education Training National Agency, the #ErasmusDays have become a key annual international event celebrating the successes of the Erasmus+ programme across Europe. For six days, people from all over the world are invited to come together and organise or take part in events that highlight the projects and opportunities offered by Erasmus+ in the field of education, training, youth and sport.

Primary schools, secondary schools, apprentice training centres, local missions, universities, associations, local and regional authorities, employment agencies, companies... All these structures, which can benefit from the Erasmus+ programme, are invited to organise an event during the #ErasmusDays.

These six days offer a fantastic opportunity for participants to share their experiences and promote the values of inclusion and diversity advocated by the Erasmus+ programme.

The role of the Erasmus+ France / Education Training National Agency

Since 2017, the Erasmus+ France / Education Training National Agency leads and coordinates the #ErasmusDays at a European and international level. Alongside the European Commission and the Erasmus+ National Agencies, it promotes the event worldwide.

In order to support the organisation of the various #ErasmusDays events, the French Agency manages the erasmusdays.eu website, which was revamped for this eighth edition. It is also responsible for developing and sharing the communication charter as well as the social media challenge campaign with the Erasmus+ National Agencies and all event organisers.

The role of project leaders and types of event

All Erasmus+ project leaders and actors in the fields of education, training, youth and sport are invited to organise an event – online and/or on-site, small or large – during the #ErasmusDays and thus promote their projects and build new regional, national, European or even international partnerships.

Project leaders just need to identify an action to set up and then register it on erasmusdays.eu. This registration will make the action visible on the site. Event organisers are also invited to share their actions on social networks using the hashtag #ErasmusDays.

All types of event are welcome: seminars, meetings between partners, photo exhibitions, concerts, flashmobs, parades, dance performances, conferences, Europass mobility awards, digital workshops, challenges on social networks, blog posts, podcasts, Facebook lives, webinars and online conferences, etc. The most important is to celebrate and make Europe shine!

2. #ERASMUSDAYS: FACTS AND FIGURES

Focus on the eighth edition

This year, to extend the spirit of the Olympic and Paralympic Games organised in Paris in 2024, the #ErasmusDays highlighted sport, with the catchphrase 'Ready, steady, go!'. This evokes not only the excitement of sporting competitions, but also a departure towards new experiences, both physical and intellectual, inherent in the Erasmus+ programme.

The general theme of #ErasmusDays, '6 days to make Europe shine', remains true to the spirit of the event, and reflects the ambition to create a dynamic, engaging and collective atmosphere throughout the event.

Today, and thanks to the promotional and communication actions carried out since 2017, the #ErasmusDays has become a recognised and unmissable event, with more and more structures involved each year.

3. #ERASMUSDAYS: INSTITUTIONAL SUPPORT IN EUROPE

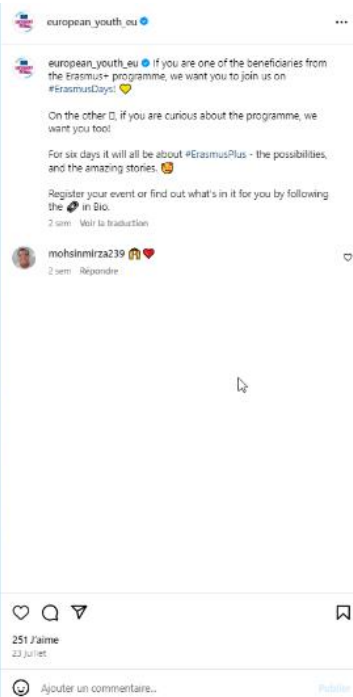

The European Commission, the European Parliament and the French Presidency granted their High Patronage to the #ErasmusDays. This support played a fundamental role in the success of the 2024 edition.

In a video supporting the launch of #ErasmusDays, [Pia Ahrenkilde Hansen](#), Director-General for Education, Youth, Sport and Culture at the European Commission, underlined the importance of the Erasmus+ programme in building a common European identity.

4. #ERASMUSDAYS: DIGITAL DIMENSION

The new #ErasmusDays website: www.erasmusdays.eu

For this eighth edition, a new website was designed in response to the constant increase in the number of events organised around the world since 2017. The aim of this new site is also to respond to new digital practices and to provide more support and inspiration for event organisers.

The interactive map is still featured to provide an overview of all the events listed.

Each event is illustrated by a factsheet containing a description and a visual. The events thus created can then be relayed on websites and social networks, along with the hashtag #ErasmusDays.

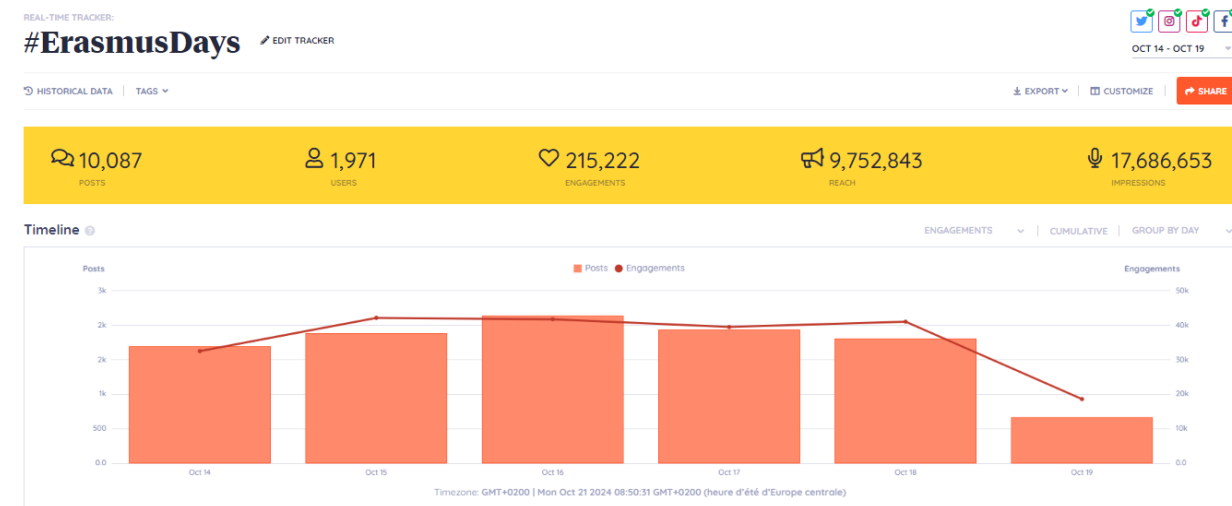

Social Media

The #ErasmusDays hashtag

This year, the #ErasmusDays hashtag was displayed more than **22 million times** between the 1st and the 23rd October on social networks.

During the #ErasmusDays from the 14th to the 19th October, 10,087 posts were published and **9,7 million** people reached, with a peak in activity on the 16th October, when 2,119 posts were published. These figures testify to the remarkable enthusiasm surrounding the #ErasmusDays and the dynamism of project leaders and final beneficiaries in promoting the Erasmus+ programme.

The global impact of the #ErasmusDays was revealed by the use of the hashtag, reaching far beyond borders. Many contributions came from all over the world, highlighting the universal nature of the event and underlining the global impact of the Erasmus+ programme.

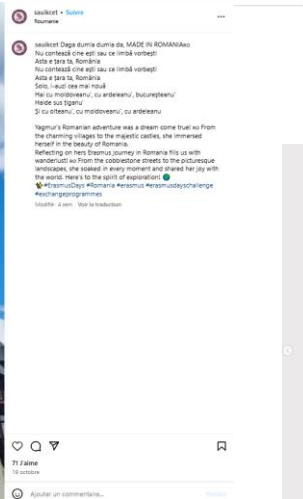

Posts: number of publications with the #ErasmusDays hashtag
Users: number of users of the #ErasmusDays hashtag
Engagements: number of people who have seen the publication and interacted with it (likes, shares, comments, etc.)
Reach: number of people reached by the #ErasmusDays hashtag
Impressions: number of times content with the #ErasmusDays hashtag appeared.

The Challenge

The #ErasmusDaysChallenge was created in 2022 to promote and increase the visibility of Erasmus+ experiences and projects. It is open to all and allows project leaders and beneficiaries to share their creativity and enthusiasm by producing and disseminating content related to their Erasmus+ experience or their desire to take part in the programme.

New:

This year, the #ErasmusDaysChallenge evolved and was completely free in its format and content: the only rule was to use the hashtag #ErasmusDaysChallenge, for video content, photos or testimonials...

For this 2024 edition, the hashtag #ErasmusDaysChallenge reached 349,446 people between the 16th September and the 25th October, mainly on the Instagram and Tiktok networks. 1,062 posts were published, engaging 46,987 people (with shares, likes, comments, etc.).
