Introduction

The Statistical Annex to the 2024 Erasmus+ Annual Report presents a concise overview of the Erasmus+ programme's results in 2024. The main purpose is to help readers have a better grasp of the main achievements of the programme through the provision of key data. In this context, the tables with data illustrate how Erasmus+ was implemented in 2024 through projects and mobility activities in the fields of education, training, youth, and sport. Data on budget, number of projects, participants, and organisations, as well as on the cross-cutting priorities of Erasmus+ (e.g., inclusion, environment, etc.) are presented therein.

This annex contains main three sections:

- **Erasmus+ budget:** the source of the data is the 2024 Annual Work Programme of Erasmus+¹ (data extracted on 08/10/2025),
- **Programme's activities:** data on contracted projects, grants, organisations² (data extracted on 08/10/2025) and mobility activities (data extracted on 08/10/2025),
- **Programme's priorities:** data on inclusion, the green and digital transitions, as well as on promoting young people's participation in democratic life.

Data related to programme activities and priorities, except for mobility activities of participants, has been calculated on 2024 as call year.³

¹ [2024 annual work programme - Erasmus+](#)

² An organisation can participate in several projects under the different actions of the programme.

³ Call year is the year when a call for proposals is published. Projects selected for funding are usually implemented in the years following the call year. In that sense, the term "call year" is linked to the term "call for proposals". A call for proposals is an invitation published by or on behalf of the Commission to present, within a given deadline, a proposal for action that corresponds to the objectives pursued and meets the required conditions. Calls for proposals are published in the

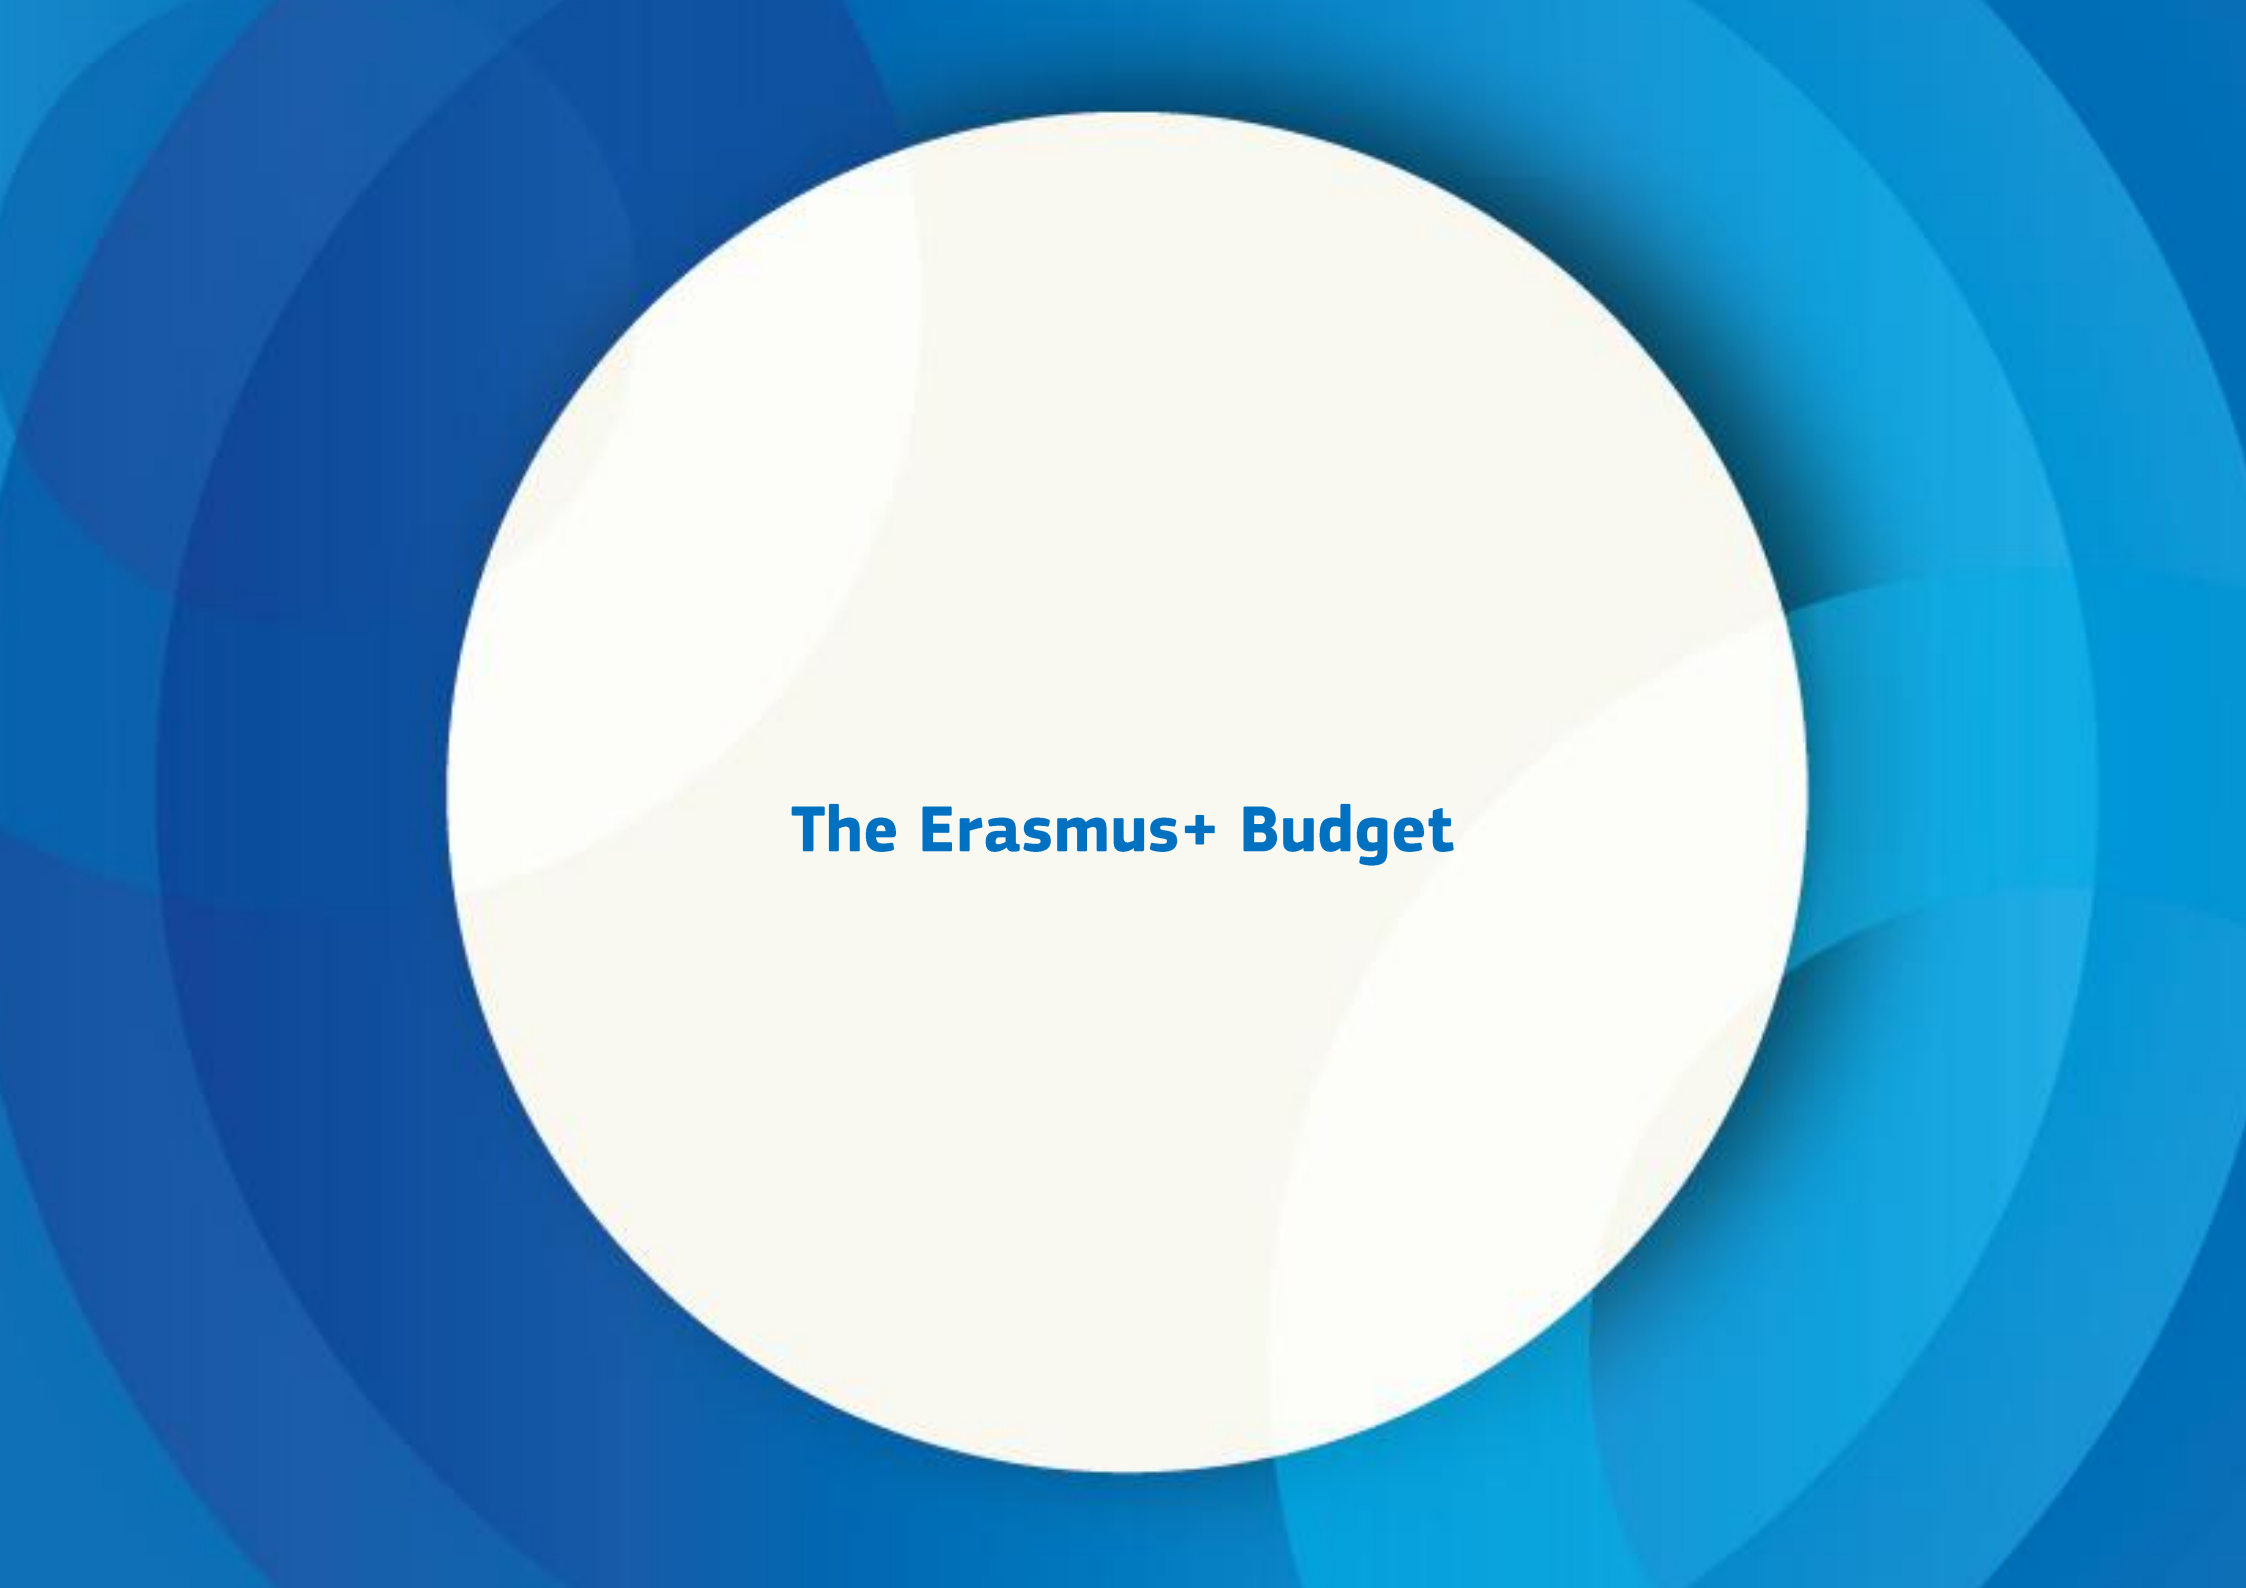

Data related to mobility activities of participants has been calculated on 2024 as mobility start year.⁴ This is the number of actual participants in mobility activities that took place in 2024 and it should not be confused with the number of expected participants⁵.

The data tables available in Excel Format in the Erasmus+ Portal: [Downloadable statistics for researchers - Erasmus+](#).

Official Journal of the European Union (C series) and/or on relevant websites of the Commission, National or Executive Agency.

⁴ Mobility activities started between 01/01/2024 and 31/12/2024 (projects funded under Calls 2020, 2021, 2022, 2023, and 2024).

⁵ Contracted mobility projects under Call 2024.

(*) Erasmus accreditation is like a membership card for organisations that want to open-up their activities to cross border exchange and cooperation. It gives them simplified and guaranteed access to Key Action 1 funding each year. Organisations need to lay down their longer-term objectives by planning their mobility activities and focusing on the expected benefits and institutional impact.

(**) Short-term/standard projects provide applicant organisations and informal groups of young people with an opportunity to organise various mobility activities over a period of three to twenty-four months. This type of projects are the best choice for organisations applying for Erasmus+ for the first time, or for those that wish to organise a one off project and/or a limited number of activities.

Glossary of terms

Action	A strand or measure of the Erasmus+ Programme. Examples of Actions are: Strategic Partnerships in the field of education, training and youth, Erasmus Mundus Joint Master Degrees, Sectors Skills Alliances, etc.
Activity	A set of tasks carried out as part of a project. An activity can be of different types (mobility activities, cooperation activities, etc.). In the framework of Jean Monnet, an Activity is equivalent to an Action (see definition above). A project can consist of several activities. Opportunities for pupils, students, trainees, and young people, as well as for professors, teachers, trainers, youth workers, sport coaches, staff of education institutions and civil society organisations to undertake a learning and/or professional experience in another country.
Mobility	In principle, the venue of mobility activities is different from the place of origin of participants. Nonetheless, depending on the conditions/eligibility criteria of the activity in question, it is possible that the activity takes place in the country of one of the organisations participating in it (not necessarily abroad).
Organisations	A mobility activity may be carried out physically and/or be blended with virtual activities. A blended mobility is the combination of physical mobility and a virtual component, facilitating collaborative online learning exchange/teamwork. A participating organisation is any organisation or informal group of young people involved in the implementation of an Erasmus+ project. Depending on their role in the project, participating organisations can be applicants or partners (also defined as co-applicants, if they are identified at time of submission of the grant application). If the project is granted, applicants become beneficiaries and partners may become co-beneficiaries if the project is financed through a multi-beneficiary grant. The numbers in the annex show the participations of beneficiary organisations in Erasmus+. An organisation can participate in several projects under the different actions of the programme.
Participant	In the context of Erasmus+ participants are considered those individuals fully involved in a project and, in some cases, receiving part of the European Union grant intended to cover their costs of participation (notably travel and subsistence). Under certain Actions of the Programme (i.e. Strategic Partnerships) a distinction is hence to be made between this category of participants (direct participants) and other individuals indirectly involved in the project (e.g. target groups).
Project	Participants count is an estimated forecast calculated once a project has been contracted. Not to be confused with Mobility. A coherent set of activities which are organised to achieve defined objectives and results. Please note that an organisation may participate in several projects.
